### At a Glance: Fiscal Position

\* Government's Net Fiscal balance for the quarter ended 30 June 2024 was a \$6.47 million surplus. This was an improvement by \$22.07 million compared to the budget estimate of \$15.60 million deficit. Overall revenue collection was slightly higher than anticipated by \$0.30 million and cost savings in Personnel (of \$4.82 million) Operating (of \$1.59 million) and Administered Payments (of \$11.24 million) have contributed to the improvement in Government's net fiscal balance.

\* The total Operating Revenue collected was \$0.30 million higher than anticipated for the quarter ended 30 June 2024. Taxation revenue collection was approximately within budget forecasts, due to increased business activity, consumer spending and collection of historical debt. However, there was a shortfall in Other Revenue collected, resulting in a \$3.01 million variance against YTD budget estimates. This variance stems from receiving \$4.27 million less than anticipated in Purse Seine Fisheries, followed by Trading Revenue of \$6.14 million. Refer to Table 1 - Revenue on Behalf of Crown for details.

\*The total Operating Expenses for General Government adjusted for depreciation for the year ended 30 June 2024 was \$196.83 million, which is \$11.16 million lower than budget estimates. This was mainly due to an overall underspend in day-to-day operational expenditure across the whole of Government ie. utilities, fuel and oil, freight etc. Government agencies are also aware of price increases and intend to take a more conservative approach regarding operation expenditure. Another contributing factor is that additional budget has been approved via Executive Order and the Supplementary Budget which was passed in February 2024, resulting in genuine underspends. Agencies have requested for a carry forward of majority of these underspends to the 2024-2025FY. There were also reappropriations of certain budget lines to the 2024-2025FY. Underspends in Personnel were caused by a combination of vacant positions within Government as well as agencies re-phasing their budgeted cash flows to meet immediate obligations. Refer to Table 3 - Administered Payments for details

\* Capital Expenditure: Capital expenditure was significantly lower than budgeted by \$10.60 million for the quarter ended 30 June 2024. Significant underspends in To Tatou Vai, Government Building Projects and other capital projects have contributed to this. Agencies are encouraged to appropriately plan and manage their Capital Budgets to ensure budgets are spent in the allotted periods, however given the unpredictable nature of the operating environment, delays have occurred. Refer to Table 4 - Capital Expenditure for more information.

The aim of the LRF is to quarantine funds previously accumulated for loan repayments and to prevent them from being utilized for anything outside of debt servicing requirements.

Schedule 3 outlines the movement of funds in and out of the LRF account. Funds transferred in by the Government as appropriated and payments made for debt servicing and other service fees.

Net Borrowing by the General Government

The General Government's 'Net Borrowing' is equivalent to Total Gross Borrowings, less the Loan Repayment Funds (LRF) and SOE Borrowings. The movement for the period is an increase of \$3.48 million, this is primarily due to the unfavourable exchange rate movements.

# Cook Islands - New Zealand Infrastructure Trust Fund

Total actual spend to date for this output is NZ\$2,450,256.48

The New Zealand Ministry of Foreign Affairs and Trade acting through the New Zealand High Commission in Rarotonga provided an initial contribution of \$12 million in December 2019 to establish the Cook Islands Infrastructure Trust Fund (ITF). The purposes of the ITF are:

- Investing in physical infrastructure to deliver essential services to Cook Islanders
- EFacilitating implementation of the National Infrastructure Investment Plan or Medical Term Fiscal strategy
- Esupporting capability development of Cook Islands' Infrastructure sector (across government and private sector)

In March 2022, the New Zealand Government made a further grant contribution of \$40 million to the ITF to help stimulate the Cook Islands' economy and strengthen its overall resilience via capital works. Officials from both governments have since confirmed priority pipeline projects for the CKI-NZ Infrastructure Trust Fund including: i) Mei Te Vai Ki Te Vai (MTVKTV); ii) Rarotonga International Airport Slab Replacement Project; iii) Manihiki Airport Improvement; iv) Northern Group Renewable Energy; v) Avarua Town Plan and Punanganui Market; and vi) Solid Waste Disposal System for Rarotonga. Total expenditure for the Avarua Town Plan project to date is \$434,211.22. The Manihiki Airport Improvement Project has been granted access to up to NZ\$6,000,000 for the procurement of plants and equipment as part of the preparatory phase of the project. Further discussion will be held to consider the allocation of the remaining funds.

Two project proposals from the pipeline were approved in November 2022 totalling NZ\$1.9.9 million for; (i) Avarua Town Plan for NZ\$7,600,000 and (ii) Manihiki Airport Improvement Project for NZ\$12,387,300. The Avarua Town Plan project have commenced implementation and began utilising the funds in late March 2023. Total actual expenditure for the Avarua Town Plan project to June 2024 is NZ\$1.299,717.00.

The Manihiki Airport Improvement Project has been granted access to up to NZ\$6,000,000 for the procurement of plants and equipment as part of the preparatory phase of the project. The project procured heavy machineries in June 2024 and have spent NZ\$1,191,322.50 by the end of FY2024. Further discussion will be held to consider the allocation of the remaining funds.

In March 2024, the Pa Enua Infrastructure Assessment Concept Note was incorporated into the ITF pipeline projects, receiving an approval to access NZ\$398,880. The project commenced in April and by June 2024, the total expenditure was \$49,216,98.

# Improving Geospatial Data - LiDAR

Total actual spend to date: NZ\$189,087.60

This project aims to address existing date gaps by collecting high-resolution topographic data and associated imagery which will support applications such as the assessment of coastal inundation and flooding hazards, environmental monitoring and management, infrastructure and development planning, policy development and implementation as well as responses to climate change impacts across the Cook Islands.

Data Capture acquisition is completed. Processing of the initial coverage maps obtained through the data capture is progressing well. To date, ICI has received coverage maps for nine islands; Rarotonga, Mangaia, Atiu, Aitutaki, Takutea, Palmerston, Mitiaro and Mauke. Preliminary Quality Assessment (Q&A) of the maps is being undertaken by a Senior CAD & GIS Environment Engineer within ICI. Submission of the remaining initial coverage maps and preliminary Q&A will be determined in the months ahead upon finalising of the tide-gauge data.

Enhancing climate information and knowledge services for resilience in 5 island countries of the Pacific Ocean

Total actual spend to date is NZ\$696.720.68

The programme will be administered and implemented by the United Nations Environmental Programme (UNEP) with the Cook Islands expected to benefit up to US\$5.3 million through direct support and up to US\$6 million through regional partners. The legal arrangements between MFEM and UNEP are now completed. Implementation commence in April 2022 pending regional arrangements with other partners.

The high vulnerability to climate change impacts and climate-related hazards arise from geography, exposure of our population and lack of resilience to shocks. The limited adaptation capacity is worsened by financial and human resource constraints and is compounded by an economic reliance on particularly climate sensitive sectors such as farming, fisheries and tourism.

The Cook Islands is highly vulnerable to climate change impacts therefore requires reliable, timely and actionable information and early warning on our local weather, climate and ocean environments as well as science-based advice on adaptation planning and early action for longer term climate change impacts.

The project aims to support beneficiaries in five countries of the Pacific Ocean through three outcomes:

- 1.increase generation and use of climate information in decision making
- 2.strengthened adaptive capacity and reduced exposure to climate risks and
- 3.strengthened awareness of climate threats and risk reduction processes

The Cook Islands component is currently under implementation with core project oversight committees established. The PMU is now working with other countries and regional technical partners to progress Cook Islands activities.

# Support to the Cook Islands PIF 2023 Chairing Responsibilities

Total actual spend to date is NZD \$241,069.85

An Agreement was finalised between the Government of the Cook Islands and the Ministry of Foreign Affairs and Trade (MFAT) for MFAT to provide support of NZ\$350,000.00 to the Cook Islands in support of its functions and duties as the incumbent Chair of the Pacific Islands Forum. The Pacific Islands Forum Leaders Meeting was hosted by the Cook Islands from 6 to 10 November 2023.

# **GEF 7 National Project**

Total actual spend to date is NZD \$287,365.93

The project aims to reduce and mitigate negative environmental impacts of the key development sectors (agriculture, infrastructure, tourism), which are the main national drivers of biodiversity and habitat degradation, through mainstreaming integrated, sustainable management of land and coastal waters across the National Environment Service (NES), Infrastructure Cook Islands (ICI), Cook Islands Tourism Corporation (CIT), and the Ministry of Agriculture (MOA).

Building upon the achievements of the GEF-5 ridge-to-reef project, the GEF-7 project strategy also includes improving management effectiveness of target protected areas, as well as expansion of the protected area system through establishment of a 118-ha community conserved area safeguarding globally significant biodiversity within the cloud forests of Rarotonga.

Project results are expected to generate multiple environmental benefits, including 3,130 ha of priority catchments under improved management, and improved management of 1,260 ha of terrestrial protected areas and 14,453 ha of marine protected areas. An estimated 9,588 people (75% of the resident population of the country), of whom 51% are women, are expected to directly benefit as a co-benefit of the GEF investment, including local communities living within and benefiting from the ecosystem services provided by the priority catchments, people benefitting from the biodiversity resources and ecosystem services of the target protected areas, and management and staff members of NES, MOA, CIT, and ICI, as well as other stakeholders benefitting from strengthened capacities.

Through improved management in the agriculture, forestry and other land use (AFOLU) sector, 288,638 tons of carbon dioxide equivalent of greenhouse gas emissions mitigated are estimated to be achieved through increased carbon sequestration and reduced emissions.

Japan For Poverty Reductions (JFPR) - Supporting Safe Recovery of Travel and Tourism in Cook Islands – (administered by Asian Development Bank)

Total actual spend to date is \$600,000

The Supporting Safe Recovery of Travel and Tourism Project will strengthen the capacity and readiness of the Cook Islands to safely receive tourists and support the country's economic recovery from the negative impacts of the coronavirus disease (COVID-19) pandemic. The project will directly complement the Government of Cook Islands, the business community, and the general public's efforts to revive tourism and rebuild the economy. Project outputs include (i) airport readiness through improvements to the Rarotonga Airport terminal to facilitate safe COVID-19 screening and physical distancing; and (ii) health readiness through the improvement of a medium-sized health facility and the procurement and (iii) installation of a medical waste treatment system. The proposed project will be the Asian Development Bank's (ADB) first assistance to a Pacific developing member country (DMC) for safe recovery of travel and tourism through financial assistance from the Japan Fund for Poverty Reduction (JFPR). The contract signing for the upgrade to the health facility enabled implementation to commence.

### Increasing the Resilience of the Cook Islands through ENAP

Total actual spend to date is \$944,514.10

The Enhancing the National Adaptation Programme (ENAP) is the Cook Islands sixth grant under Readiness Support.

The proposed activities will build knowledge and capacity to consider in detail the potential impacts of slow-onset events such as sea-level rise and ocean acidification, and the long-term adaptive response to those impacts. The proposal also includes activities to assess vulnerability of privately-owned infrastructure and climate change impacts on businesses at a sector level.

The ENAP proposal has four specific Outcomes:

- Dutcome 3.2. Evidence basis produced to design adaptation solutions for maximum impact.
- •Dutcome 3.3. Private sector engagement in adaptation catalysed.
- Dutcome 3.4. Adaptation finance increased
- •Dutcome 3.1: Adaptation planning governance and institutional coordination strengthened.

# Cook Islands Coastal Fisheries and Aquaculture TA

Total actual spend to date is \$155,121

This project aims to build technical and policy capacity within the MMR using an in-country medium term support model, providing technical and policy advisers to support coastal fisheries management and aquaculture programmes. Focusing on advancing initiatives including community-based fisheries management, livelihoods, food security through targeted workplans, mentoring and skills transfer. Grant Agreement between SPC and MMR was signed in September 2023 with the project now implementation.
