

ADB 20/20 Strategy Midterm Review

As the mid-point of Strategy 2020 approaches, ADB is initiating a midterm review with the objective of improving its responsiveness and effectiveness. This review will analyze lessons learned through the strategy's implementation and the emerging challenges of DMCs. Key achievements, as well as areas for improvement, will be identified along with the need for any mid-course correction.

The Cook Islands Government has attended a workshop to provide feedback on the review and now invites private sector and civil society to engage with the Asian Development Bank Mid term review. In this section you will find:

- [An introduction to the review and questions to consider](#)
- [Some discussion notes](#)
- [Progress to date](#)
- [20/20 Strategy brief](#)

Please send feedback directly on the feedback form on the adb website at [Strategy 2020 Midterm Review | Asian Development Bank](#). Feedback is open until May 2014.
